KARTHIK KUMAR BOGADI

bogadikarthikkumar@gmail.com | +91 9908712037 | LinkedIn | GitHub | LeetCode | Portfolio

Career Objective

Aspiring Software Engineer with knowledge of Java, Spring Boot, REST APIs, and Data Structures & Algorithms, seeking an entry-level opportunity to contribute to real-world backend development.

Education

B.Tech – Information Technology Jul 2024 – Present
PVP Siddhartha Institute of Technology, Vijayawada CGPA: 8.84

Diploma in Computer Engineering (DCME) Oct 2021 – May 2024
V.K.R, V.N.B & A.G.K College of Engineering, Gudivada Percentage: 94.37%

Skills

Programming Languages: Java (Collections Framework), Python
Backend Development: Spring Boot, Spring Framework, REST APIs, JWT, JDBC, Spring MVC
Databases: MySQL
Frontend Development: HTML, CSS, React (Basics)
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating System
Developer Tools & Platforms: Git, GitHub, Docker, Postman, Apache Tomcat, JUnit, SonarQube, IntelliJ IDEA

Projects

AI-Powered Secure Medical Report Vault GitHub · Live Demo
Python, Flask, SQLite, Random Forest, Groq LLaMA

- Developed a healthcare web application that enables patients to upload, store, access, and share medical reports anytime, anywhere, regardless of the hospital.
- Integrated Groq LLaMA to generate medical report summaries by extracting PDF text and removing personally identifiable information (PII) before processing.
- Built a Random Forest model to predict likely diseases from symptoms with 91.37% accuracy and automatically retrieve relevant patient reports.
- Implemented secure report sharing using temporary access tokens and hashing to help protect sensitive medical records.

Student Management System (Spring Boot) GitHub
Java, Spring Boot, Spring Data JPA, MySQL, REST APIs

- Developed a backend application using Spring Boot following MVC architecture for managing student records.
- Implemented CRUD operations using Spring Data JPA with MySQL database integration.
- Tested APIs using Postman and integrated database operations with MySQL.

Internship

Java Programming Intern – EduSkills Jul 2025 – Sep 2025

- Gained hands-on experience in Core & Advanced Java and object-oriented programming.
- Worked on basic application development and problem-solving tasks.

Artificial Intelligence Intern – Infosys Springboard GitHub Jan 2026 – Mar 2026

- Developed an AI-driven testing agent converting natural language instructions into structured automation steps.
- Implemented instruction parsing to map user test cases to browser actions.
- Generated Playwright test scripts dynamically and executed automated browser tests.
- Built end-to-end workflow from input → execution → PASS/FAIL reporting.

Achievements

- **2× Hackathon Winner:** 3rd Prize – PVPSIT Hackathon; Top 4 – ALEAP 24-Hour Hackathon, Vijayawada
- Participated in **Cognizant Technoverse Hackathon 2026**
- Solved **261+ DSA problems** on LeetCode with a **1650+ rating**; participated in **17+ Weekly Contests**

Certifications [Certificate Portfolio]

- **Fundamentals of Artificial Intelligence** – NPTEL (81%, Top 5%)
- **DSA Training** – Smart Interviews
- **Programming Using Java** – Infosys Springboard
